1. What does this program do?

This core item funds the administration of the Division of Comprehensive Psychiatric Services (CPS) through the following employee functions: Program and Policy Development and Planning; Training and Technical Assistance; Quality of Treatment; Compliance and Monitoring; and Financial and Data Management. Through program development, monitoring, and oversight CPS provides quality treatment to adults and children who have been diagnosed with Serious Mental Illness, Severe Emotional Disturbance, and in many cases dually diagnosed with a psychiatric disorder and substance abuse.

CPS supports five hospital systems. Each system is directed by a Regional Executive Officer and consists of one to three state operated and funded inpatient facilities. Funding for these positions is through the budgets of the inpatient facilities, however, CPS provides direction, guidance and oversight for the hospital systems. The hospital systems were developed to consolidate administrative staff from each inpatient facility into a centralized regional administration in order to gain efficiency and standardization of treatment and policy. The five hospital systems are: 1) Western - Center for Behavioral Medicine and Northwest Missouri Psychiatric Rehabilitation Center (PRC); 2) Central - Fulton State Hospital ; 3) Eastern - Metropolitan St. Louis Psychiatric Center, St. Louis PRC, and Hawthorn Children's Psychiatric Hospital; 4) Southeast Missouri Mental Health Center and Cottonwood Residential Treatment Center; and 5) Southwest Missouri PRC. CPS Administration's responsibility to inpatient facility oversight has included the Psychiatric Acute Care Transformation project and Inpatient Redesign initiative to decrease the cost of inpatient services to the State while at the same time improving the environmental settings in which the services are provided.

CPS Administration supports management and policy making for all of CPS's services and assures: 1) the accessibility and coordination of treatment services throughout the state; 2) the availability and competence of both state and privately employed treatment staff; and 3) the integration and attainment of the goals identified by the Department. CPS Administration works closely with community service providers to plan and implement specialized projects such as Disease Management 3700, a Department of Social Services and Department of Mental Health cost containment initiative, and the development of Healthcare Homes. CPS provides funding and oversight to approximately 400 contracted private provider agencies delivering mental health and residential services and supports.

CPS Administration applies for and oversees numerous federal grants to assist in the funding of treatment for both adults and children. This includes the annual application for the Community Mental Health Services Block Grant (approximately \$7 million annually).

7b. Provide an efficiency measure.

Note: Increase between FY 2007 & FY 2008 is primarily due to supplemental funding for the Pharmacy Privatization Contract. The increase in FY 2009 is due to one-time funding of \$3.8 million from Healthcare Technology Fund subsequently placed in Governor's Reserve. Decrease in FY 2010 reflects core reduction of general revenue funding and excess authority.

Note: The FY 2009 and FY 2010 population data source for this calculation is the U.S. Census Bureau Population Division (most current statistical data available at the time).

2. CORE DESCRIPTION

The Facility Support HB Section was created to assist CPS facilities by establishing a single section to administer several allocations to facilities. These allocations have historically come from various house bill sections within the CPS division budget; Adult Community Programs, NGRI and PRN Nursing Pool House Bill Sections. This also establishes a mechanism to allow the allocation of Medicare earnings to the facilities to assist them in coping with over census issues.

Loss of Benefits

Pursuant to Chapter 552 RSMo., the Department of Mental Health (DMH) must provide secure inpatient hospitalization for those individuals committed by the Circuit Courts as not competent to proceed and not guilty by reason of mental disease or defect. Individuals so committed incur costs for necessary medical care. However, the Social Security Domestic Employment Reform Act of 1994 removed Social Security Disability Insurance (SSDI), Retirement Survivors Disability Insurance (RSDI), and Social Security Retirement (SSA) for those individuals committed as incompetent to proceed and not guilty by reason of mental disease or defect. Medicare Part B premiums, which help pay for necessary health care costs, were previously paid for out of these Social Security funds. Payment of these premiums will maintain Medicare insurance for those eligible forensic clients thereby allowing Medicare to pick up a major portion of client medical expenses. This core item will pay for Medicare Part B premiums and other necessary health care costs for those individuals so committed to DMH.

PRN Nursing & Direct Care Staff Pool

A nursing shortage exists both statewide and nationally. This shortage, in conjunction with non-competitive state salaries, has limited the number of qualified nursing personnel available to staff state funded mental health facilities. This continuing shortage could adversely impact the safety and security of staff and clients; Joint Commission for Hospital Accreditation status; Medicare Certification; third party reimbursements and disproportionate share claim reimbursement.

A new bill section was created for the Division of CPS to address the nursing shortage issue by allowing CPS to establish a PRN nursing pool. This was accomplished through a redirect of Personal Service funding and FTE from CPS facilities' budgets to the new bill section. Individuals hired into this pool will not be allowed to work more than 1,039 hours per year (.49 FTE) and will not be eligible for state benefits. The fringe benefit funding associated with the CPS facilities' FTE was core transferred into this new bill section from HB 5 (O/A Fringe) to fully support the PRN nursing pool.

Federal Authority

This will allow the facilities to utilize Medicare collections for the purchase of medical services in order to comply with the Medicare bundling requirements. In addition, this will also allow the Division to utilize state operated waiver collections to restore facilities expenses and equipment costs incurred for training, pay for annual expenses to implement Medicare Part D and to utilize Medicare part D collections to assist facilities in coping with over census issues.

Voluntary by Guardian

In FY11 the Division of CPS initiated a change within its state operated inpatient psychiatric system to reduce costs and improve long term care for individuals with serious mental illness. Goals associated with this initiative will be accomplished by moving approximately 120 consumers voluntarily placed by guardians, from long term inpatient settings into community settings supported by new intensive community programs.

3. PROGRAM LISTING (list programs included in this core funding)

NOTES:

This HB section was established in the FY 2011 budget cycle. The HB section includes PRN Nursing and Direct Care Staff and Loss of Benefits, and federal authority needed to utilize Medicare Part D collections to assist facilities in coping with over census issues. The FY12 budget cycle established the Voluntary by Guardian initiative within the HB section and added core funding to support the program.

In response to the closure of the Emergency Room and two acute care wards at Metropolitan St. Louis Psychiatric Center (MSLPC), the Regional Health Commission of the St. Louis Metropolitan Region and its Psychiatric Capacity Task Force created an independent entity, the STL Psychiatric Stabilization Center (PSC), to mitigate the impact of the loss of these services to the community. MSLPC is leasing space to the newly created PSC to operate a 25 to 50 bed psychiatric stabilization center, and an associated psychiatric emergency room. The PSC will work with Emergency Medical Services and the community mental health centers in the metropolitan region to expedite uptake into community based psychiatric services as an alternative to use of Emergency Rooms or psychiatric admissions at community hospitals. The Department has entered into a public-private partnership with both BJC Health Care and the SSM HealthCare. This request is for appropriation authority within MSLPC's budget to provide support services to the PSC. In turn, MSLPC will bill PSC for support services (food, custodial, and laundry) and use the collections to cover the costs so that they are not borne by the state.

Statutory authorization is found in sections 632.010.2 and 632.010.2(1) RSMo.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

REQUEST:

The number of FTEs was determined by analyzing the MSLPC staffing plan and the support services requirements of PSC. A Food Service Helper I (002073) and Custodial Worker I (002001) are the minimal FTE classifications to meet the support services requirements. Both classifications are budgeted at the entry level on Range A05 and Step E. The Expense and Equipment request is based on MSLPC's estimate for per diem variable expenses for support services.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an effectiveness measure.

6b. Provide an efficiency measure.

Note: The graph represents the proportional percentage of consumers discharged from DMH-CPS operated facilities who are subsequently readmitted to an inpatient bed within 30 days. Missouri compared to the national average indicates more readmissions took place in Missouri than nationally. The decline below the national average in FY 2011 is due to the transfer of acute inpatient programs from state operated to private facilities.

CORE DECISION ITEM

Department: <u>Mental Health</u>	Budget Unit: <u>69209C</u>
Division: <u>Comprehensive Psychiatric Services</u>	
Core: <u>Adult Community Programs</u>	

2. CORE DESCRIPTION

CPS Adult Community Providers serve priority populations including: individuals discharged from state hospitals, individuals within the probation and parole system, individuals that are Medicaid eligible, and limited funding for individuals in crisis.

Consistent with Chapter 632.010 RSMo, the Division of Comprehensive Psychiatric Services (CPS) is responsible for ensuring prevention, evaluation, treatment and rehabilitation services are accessible, wherever possible. Funding is necessary to ensure availability of a comprehensive system of community services because: (1) new medications and psychiatric rehabilitation technologies have been developed for use in the community; (2) services in the community have the same or greater effectiveness in terms of symptom reduction, functional skills, and client outcomes; and (3) consumers and families generally prefer community services.

Historically, the majority of mental health funds have been spent on inpatient psychiatric care. However, new treatment and medication technologies, community involvement, and consumer preference have created the need for the development of community based services. These services are provided where clients live therefore allowing them to remain in their communities, and are also provided to clients affected by mental illness and/or dual diagnosis experiencing homelessness.

Adult Community programs are administered locally by Community Mental Health Centers that serve as administrative agents for CPS's twenty-five (25) defined service areas. Adult community services are designed to promote independent living in the least restrictive setting possible. The service philosophy is one of recovery that instills hope and promotes self-determination and full community membership for persons with serious mental illnesses and the homeless mentally ill.

There are two major components of Adult Community Programs offered through CPS: 1) Community Treatment, and 2) Residential Services.

NOTES:

- (1) In FY 2010, the lapse in federal authority is due to the transition of Targeted Case Management to Community Support billings not being fully implemented until FY 2012.
- (2) The increase of FY 2011 appropriation versus FY 2010 was based on requests to increase estimated appropriations.
- (3) Funding was core reallocated in to ACP to support adult community programs associated with the closure of facility Emergency Departments. Also, in FY 2012, new GR funding, \$150,000, for the Eating Disorders Council was placed in expenditure restriction.

1. What does this program do?

CPS Adult Community Providers serve priority populations including: individuals discharged from state hospitals, individuals within the probation and parole system, individuals that are Medicaid eligible, and individuals in crisis.

This program provides a treatment and case management system that is delivered through the CPS network of Community Mental Health Centers (CMHC's) and affiliated community providers. Voluntary access to needed services and the service delivery system are promoted in each service area through outreach, screening, intake and evaluation services performed by the local CMHC. CMHCs are also required to accept civil involuntary outpatient commitments when deemed necessary, screen all clients being discharged from state facilities within two weeks as well as provide services to clients who are conditionally released from civil involuntary inpatient commitments and forensic involuntary inpatient commitments. In addition to the outreach, screening, intake and evaluation services provided for all clients, community treatment also includes the following services: case management; community support; medications and medication related services; individual, group and family therapy; wrap-around services; psychosocial rehabilitation; day treatment; supported employment; and 24-hour crisis intervention services.

This program has been developed to serve CPS's adult target populations of forensic clients and persons with severe mental illness, particularly those individuals who are at risk of repeated inpatient hospitalization. Individuals being discharged from inpatient psychiatric facilities are also in particular need of intensive services and supports from community based programs. Many community providers have developed waiting lists due to the increased demand for services and their limited resources. This program ensures that individuals being discharged from inpatient care are connected to community services upon discharge by being assigned a case manager or community support worker. Research indicates that this makes a significant difference in hospital recidivism rates and following through with community treatment.

Case management assists persons in accessing treatment, services and supports in the community. Service activities include arranging, coordinating, and participating in assessment activities; coordinating services and supports; and monitoring services to insure implementation of the treatment plan.

1. What does this program do? (Continued)

Community Psychiatric Rehabilitation provides an array of key services to adults with the most severe, disabling mental illness. This client centered approach emphasizes individual choice and need, by offering a menu of flexible services and supports. In addition, rehabilitative skills training in home and community settings promotes independence and the pursuit of meaningful living, working, learning and leisure time activities in the community. These services are covered under the MO HealthNet Rehabilitation Program and include intake/annual evaluations, community support, medication management, and psychosocial rehabilitation services. Through this program, many individuals with serious mental illness can successfully live and work in the community.

Additionally, the Department of Mental Health and the Department of Corrections are collaborating on the Community Mental Health Treatment Project for offenders with serious mental illness who are on probation or parole. The partnership creates a firm linkage between offenders and community mental health centers. The results are dramatic. Fewer than one third of offenders on parole that participate in the project are back in prison within two years, compared to over 70% for those who do not. The project has a direct impact on public safety and keeps people with serious mental illness out of prison.

Crisis prevention and intervention must be available where crisis occurs in all areas of the state and at all times. With crisis prevention and intervention, persons have an opportunity to receive necessary crisis services without removing them from the setting they are in, if possible. These frontline services help assure all available community services are utilized to return a person to a pre-crisis level of functioning, direct them to appropriate follow-up services to reduce future crisis situations, and provide referral and resource information to persons who are anticipating a crisis. Access Crisis Intervention (ACI) provides a comprehensive model for crisis prevention and intervention which is an essential component of a mental health care system that promotes immediate and voluntary access to services and provides appropriate, cost effective mental health services. This model includes, at a minimum, the following services on a 24-hour per day, seven day a week availability: toll-free crisis hotline, mobile outreach crisis team, crisis residential services, and next-day urgent appointment capability. This service also provides qualified mental health professionals to assist law enforcement and others in the civil involuntary commitment process.

Funds were appropriated in FY 2008 for a new evidenced based service known as Assertive Community Treatment (ACT). Services are targeted to a specified group of individuals with severe mental illness in such a manner that rather than brokering services, the treatment, support and rehabilitation services are provided directly by an ACT team. The staff-to-consumer ratio of an ACT team is small (approximately 1 to 10) with team members sharing the responsibility for the individuals served by the team. Treatment and services are flexible and comprehensive with interventions carried out at the locations where problems occur and support is needed rather than in hospital or clinic settings. Services are available under the ACT Model on a 24-hour basis with no arbitrary time limit on receiving services. The ACT teams are assertive in engaging individuals in their individualized treatment, support and monitoring of progress.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 632.010.1, 632.010.2(1), 632.050 and 632.055 RSMo.

3. Are there federal matching requirements? If yes, please explain.

Community Psychiatric Rehabilitation and Targeted Case Management are MO HealthNet services and require approximately thirty-five percent (35%) state match. The federal block grant requires CPS to maintain a level of funding for community programs for adults.

4. Is this a federally mandated program? If yes, please explain.

The Americans with Disability Act (Supreme Court Ruling in Olmstead vs. LC, 1999) requires states to identify institutional residents who could live in integrated community settings.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Mental Health Earnings Fund (MHEF), Mental Health Local Tax Match Fund (MHLTMF), Mental Health Interagency Payment Fund (MHIPF)

Note: This graph represents the percent of adults requiring psychiatric hospitalization during the 12 months prior to admission into Community Programs and the percent requiring rehospitalization during the 12 months between admission and annual assessment. Data reflects that community treatment reduces costly hospital readmissions.

Note: This graph represents the percent of clients reporting involvement with a law enforcement agency during the 12 months prior to admission into any community treatment program and the percent that reported involvement during the 12 months between admission and annual assessment. Data reflects that community treatment reduces the level of contacts consumers have with law enforcement.

7a. Provide an effectiveness measure. (Continued)

The "MH3 Project" is a specialized program that is a collaboration between DOC, CPS, and community mental health centers. Offenders with serious mental health illness who successfully participate in the project have dramatically lower rates of re-incarceration compared to those who do not complete the project. This is true at 6 months, 12 months and 24 months after release from prison.

7b. Provide an efficiency measure.

Note: The difference between FY 2010 and FY 2011 annual cost per client treated in adult inpatient facilities is due to the drop in client counts as a result of the closure of emergency rooms and acute care beds within the state operated adult facilities.

PROGRAM DESCRIPTION

7c. Provide the number of clients/individuals served, if applicable.

Note: Community Services client counts do not include the increase in clients served through charity care at CMHCs due to reductions in non-Medicaid GR. The reduction in clients served at adult facilities is due to inpatient redesign and the closure of facility wards, emergency room and acute care beds.

Note: The reduction in the number of traditional "outpatient" consumers is a result of program services converted from non-Medicaid reimbursed programs to the Comprehensive Psychiatric Rehabilitation (CPR) and Targeted Case Management (TCM) program models, and the shift of consumers to those services.

1. What does this program do?

Treating individuals in community settings requires a variety of residential alternatives to meet the diverse needs and wide age range of those we serve. Funds are used to support the cost of residential services such as residential care facilities, group homes, and supported housing. Residential services are provided in the client's community through contractual arrangements. As individuals move into more normalized housing alternatives, they require intensive and flexible services and supports in order to maintain that housing. Provision of these services and supports will enable these individuals to successfully live and work in their communities. CPS contracts with approximately 300 providers of residential services. Examples of some of the residential services included are:

Residential Care Facility - a residential care facility is a long-term care facility licensed as such by the Department of Health and Senior Services and may also be licensed by the Department of Mental Health. This facility serves an adult population of the general public, as well as people who are mentally ill or cognitively/intellectually disabled. Although these are considered long-term care facilities, it is expected that the client be encouraged and assisted in developing self-care skills which would qualify him/her for a less restrictive treatment setting. The following services are provided by the contractor: room, board and routine care; participation in individualized treatment/habilitation planning; medication supervision; and transportation for services which could include annual physicals, recreation activities, routine shopping trips for clothing and personal items, and routine medical care.

Supported Housing - this is an independent apartment setting where consumers learn to acquire and access resources to maintain themselves independently. Each residence must meet the HUD standards for safe and affordable housing.

Through this program, many individuals with serious mental illness (SMI) can successfully live and work in the community.

2. CORE DESCRIPTION

Statute mandates that certain fees and costs for involuntary civil detention proceedings for an individual who presents a likelihood of harm due to a mental illness or due to substance abuse be paid by the State (Sections 56.700, 57.280, 488.435, 630.130, 632.415, RSMo.).

It is required that reasonable attorney fees and costs be paid in involuntary civil detention hearings when the court has determined that the individual is unable to pay. Likewise, reasonable attorney fees and costs are paid for involuntary electroconvulsive therapy court proceedings when the court has determined the individual is unable to pay. Sheriff mileage fees for executing a court warrant for civil involuntary detention proceedings are considered court costs and are reimbursed at the rate set by the Internal Revenue Service.

In addition, the statute allows payment for prosecuting attorneys in certain counties to employ an assistant attorney and investigative or clerical staff to carry out the duties relating to mental health and mental health facilities.

The fees imposed by the courts are set by the Supreme Court. Effective July 1, 2003, pursuant to Supreme Court Operating Rule 21.01, Probate Courts could no longer collect the thirty-five dollar fee for involuntary hospitalizations proceedings that had for many years been charged and subsequently paid by the DMH from this appropriation. The Supreme Court Operating Rule 21.01 effective July 1, 2004, once again allows the Probate Court to collect the thirty-five dollar fee, but not in cases where the costs are to be paid by the state.

1. What does this program do?

The Department is statutorily mandated to monitor forensic clients acquitted as not guilty by reason of mental disease or defect who are granted a conditional release to the community by the Court. Monitoring is provided by Forensic Case Monitors under the direction of the Director of Forensic Services. There are eleven Forensic Case Monitors located across the state who oversee approximately 474 forensic clients on court-ordered conditional release statewide.

Forensic Case Monitors must meet with each forensic client on conditional release at least monthly, and more often if necessary, to determine compliance with court-ordered conditions of release and to ensure that forensic clients are receiving care and treatment consistent with their needs and the needs of public safety. If the Forensic Case Monitor determines the client has violated the court-ordered conditions of release or needs inpatient psychiatric treatment, the client may be voluntarily admitted or the Director of Forensic Services may issue an Order returning the client to inpatient treatment and initiate proceedings to revoke the conditional release. The Forensic Case Monitors must also provide testimony at court proceedings and revocation hearings and must educate community providers about forensic and public safety issues.

The Department, upon order of the Circuit Court, provides pretrial evaluations on issues of competency to stand trial and criminal responsibility. The Department requires that evaluations be completed by Certified Forensic Examiners who must hold doctorate degrees in medicine, osteopathy or psychology and who must complete required supervision and training. This certification process is the responsibility of the Director of Forensic Services.

2. CORE DESCRIPTION

CPS youth community providers serve priority populations including children and youth who are at risk of placement outside of their home (inpatient or residential) and/or are transitioning from a DMH/CPS supported placement out of their home. The purpose of the Youth Community Programs core item is to fund an array of treatment interventions for youth experiencing serious emotional disturbance (SED) residing in the community. Children with SED, and children and youth with acute psychiatric needs are the primary clients that receive services funded by Youth Community Programs. The 2010 estimated census population of youth under age eighteen (18) in Missouri is 1,431,353. Conservative estimates of prevalence (Center for Mental Health Services, HHS, 1997) indicate seven percent (7%) of all Missouri children, or 100,194 children, could experience SED. Estimates of any psychiatric illness with lesser functional impairment are even higher, from twelve percent (12%) to twenty-one percent (21%). Based upon a conservative presentation rate of fifty percent (50%) of children experiencing SED, some 50,097 children may need services from the public mental health authority. However, in FY 2011 approximately 16,000 (unduplicated) children received CPS services and 253 of those children were served in hospital/residential facilities, leaving nearly 34,000 children unserved or underserved.

Services are designed to maximize functioning and promote community and family integration using a comprehensive system of care approach. Community Treatment targets youth who are at risk of inpatient hospitalization or other out-of-home placement. Services are provided by qualified mental health professionals and other personnel within the state's 25 designated service areas. The Community Treatment Program provides an array of key services to children with serious emotional disturbances. This emphasizes child centered individual choices and needs, and flexible services and supports, using community resources and natural support systems. Promotion of independence and the pursuit of meaningful living, working, learning and leisure time activities in normal community settings is stressed in this treatment setting. Services include intake/annual evaluations, crisis intervention, case management, psychotherapy, respite, day treatment, community support, medication management, psychosocial rehabilitation and treatment family homes. Contractual arrangements are made to purchase these community mental health services from local community mental health centers.</p>

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program #, if applicable.)

Sections 630.405 - 630.460, 632.010.2(1), 632.050 and 632.055 RSMo

3. Are there federal matching requirements? If yes, please explain.

Community Psychiatric Rehabilitation and Targeted Case Management are Mo HealthNet services and require a 35% state match.

4. Is this a federally mandated program? If yes, please explain.

The Americans with Disabilities Act (Supreme Court Ruling in Olmstead vs. LC, 1999) requires states to identify institutional residents who could live in integrated community settings. The federal block grant requires CPS to maintain a level of funding for community services. In addition, the block grant requires that a minimum of 10% of these funds be expended on children.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Mental Health Local Tax Match Fund (MHLTMF), Mental Health Interagency Payment Fund (MHIPF)

CPS contracts with approximately 100 providers of residential services. This includes the following: Residential Treatment Services; Youth Treatment Family Homes; Youth Group Homes; Family-Focused Residential Services; Therapeutic Foster Homes; Family Assistance Services Natural Homes; and other miscellaneous settings.

2. CORE DESCRIPTION

The purpose of this core item is to provide the authority for DMH to enter into inter-agency agreements with the Children's Division and Division of Youth Services to provide residential care and recovery for youths who require DMH services and have no other placement alternative. The Division of Youth Services (DYS) and the Children's Division are in need of treatment programs for children and adolescents in their care and custody who are experiencing psychiatric symptoms and disabilities. The primary clients are youth in need of residential mental health treatment which is generally not available in the community.

Children's residential programs at Hawthorn Children's Psychiatric Center and Cottonwood Residential Treatment Center will have the ability to establish interagency agreements with the Children's Division and DHS to provide residential care for non-MO HealthNet eligible adolescents in their custody experiencing psychiatric symptoms. These youth will be integrated into the facilities' treatment programs and receive educational services, counseling, recreational therapy, medication management, and discharge planning. The consequences of not funding this request are that the children and adolescents experiencing psychiatric symptoms and disabilities will not be able to receive treatment in a secure and appropriate setting. Such consequences make it more likely that the youth in need of services will be involved with the juvenile justice and social services systems.

2. CORE DESCRIPTION

This core item funds medication and medication related services for persons who could not otherwise afford it. Psychiatric medication is the primary treatment for severe mental illness. New medications are the most rapidly advancing area of technology in clinical treatment of mental health. The new medications have fewer side effects and are therefore much more acceptable to clients and more effective on treating psychosis.

Approximately half of the Division of Comprehensive Psychiatric Services (CPS) clients have their medication costs covered through MO HealthNet. For almost all CPS clients, the cost of medications is a major barrier to accessing medication services. Medication expenditures have continued to increase over the last several years, taking away funds intended for case management, psycho-social rehabilitation, therapy, etc.

1. What does this program do?

This core funding increases treatment adherence and efficacy by providing medications that are more effective and have fewer side effects. Prior to implementation of this program, many CPS clients were prescribed an older, less appropriate medication due to cost considerations. These commonly had more side effects and were not as effective.

The Department's current data indicates a forty-seven percent (47%) decrease in overdose deaths due to the new generation of antidepressants. The Department has also seen a thirty-seven percent (37%) decrease in the use of medications to treat the side effects of early generation anti-psychotics.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 632.010.2(1) and 632.055 RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

PROGRAM DESCRIPTION

1. What does this program do?

State operated adult facilities provide long term inpatient hospitalization and psychiatric treatment for individuals. The facilities serve two basic populations: forensic and voluntary by guardian. Services consist primarily of psychosocial rehabilitation and inpatient treatment for those individuals with severe and persistent mental illness. Patients present some danger to themselves or others and their illness cannot be effectively treated in a less restrictive environment.

The forensic program provides psychiatric evaluation, care and treatment for individuals ordered into the system by the circuit courts. These clients are mentally ill and/or individuals who have become involved with the criminal justice system. The forensic program requires not only the specialized knowledge and services needed for working with individuals with serious mental illness, but also specialized knowledge of the more structured procedural issues surrounding interaction with the judicial system. This highly specialized service provides the capability of evaluation and treatment in a secure environment.

CPS has a full range of secured treatment settings in order to more effectively treat forensic and non-forensic clients and to ensure public safety in accordance with Chapter 552 RSMo. CPS's only maximum security setting, the Biggs Forensic Center, and only intermediate security setting, the Guhleman Forensic Center, are both located at Fulton State Hospital. Minimum-security settings that provide security beyond that offered by locked wards have also been developed by CPS. These settings are provided through various applications of secured perimeters, including inside and outside containment, internal security systems, escort requirements and security staffing. In a less secure environment, when public safety is not an issue, services are provided with the desired goal of progressive movement from a highly structured living situation to a less structured living situation. In this manner, people are given the opportunity to move through a system specifically designed to provide them with an accompanying increased emphasis on demonstrated acceptable standards of behavior.

1. What does this program do? (Continued)

Over the past two years the Department of Mental Health (DMH) has changed its state operated inpatient psychiatric system to reduce costs and improve long term care for individuals with serious mental illness. These goals are being realized as we continue to identify patients currently in long term inpatient settings appropriate to transition into community settings supported by new intensive community programs. DMH closed its remaining psychiatric emergency rooms and five acute units and moved minimum security patients from Fulton State Hospital (FSH) to newer state hospital inpatient beds. Additionally, a high security satellite Sexual Offender Rehabilitation Treatment Services (SORTS) program was created at Fulton State Hospital to accommodate growth of referrals from the Department of Corrections. A specialized inpatient unit at Kansas City's Center for Behavioral Medicine (CBM-formerly Western Missouri Mental Health Center) and two specialized units at St. Louis Metropolitan Psychiatric Center (MPC) will perform competency restoration for court committed individuals incarcerated as Incompetent to Stand Trial. These changes have expanded services at CBM and replaced acute unit closures at St. Louis Metropolitan Psychiatric Center.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 632.010.2 and 632.010.2(1) RSMo

3. Are there federal matching requirements? If yes, please explain.

Inpatient facilities provide GR match for Mo HealthNet eligible services through the certification of GR expenses, no additional match is required. Also, the cost associated with the operation of the CPS long-term care hospitals significantly impacts the reimbursement made by Medicaid under the federal disproportionate share hospital requirements.

4. Is this a federally mandated program? If yes, please explain.

No.

1. What does this program do?

The Sex Offender Rehabilitation and Treatment Services (SORTS), formerly Missouri Sexual Offender Treatment Center, provides appropriate treatment and housing for those individuals adjudicated by the courts as sexually violent predators. With passage of the Sexually Violent Predator law, which was effective January 1, 1999, the Missouri General Assembly mandated that those individuals adjudicated by the court as "sexually violent predators" be committed indefinitely to the custody of the Director of the Department of Mental Health for "control, care and treatment until such time...that the person is safe to be at large." In order for such commitments to pass constitutional scrutiny, the Department must provide care and treatment that is consistent with existing professional standards and practice, and federal case law. The law also requires that individuals committed for treatment as sexually violent predators be kept in a secure facility and housed separately from Department of Corrections inmates and from other mental health clients who have not been found to be sexually violent predators.

The current SORTS program is operated within two CPS facilities, Southeast Missouri Mental Health Center and Fulton State Hospital. In FY2011, funds were allocated to open the new wards at Fulton State Hospital. The additional space at Fulton State Hospital, created by the FY2011-2012 Inpatient Redesign Initiative, avoids an estimated \$72 million capital improvement proposal to build a new facility at Southeast Missouri Mental Health Center.

The original SORTS (formerly known as the Missouri Sexual Offender Treatment Center -- MSOTC), is located on the campus of Southeast Missouri Mental Health Center in Farmington within a secure perimeter maintained by the Department of Corrections. In FY 2009 funds were reallocated to allow SORTS to contract with detention centers to house individuals who are awaiting trial to determine their commitment status. This will allow the growth of the committed population without requiring immediate expansion of facilities.

In addition to the housing and treatment of individuals committed under this statute, the Department provides a psychiatrist and a psychologist to participate in the Multidisciplinary Team to assist the Prosecutor's Review Committee in determining whether an individual may meet the definition of a sexually violent predator. Further, the Department is required to provide a psychiatrist or psychologist to evaluate each individual for whom the court finds probable cause to believe the person is a sexually violent predator. Finally, the Department must provide the committing court an annual report regarding the committed person's mental condition

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Sex Offender Rehabilitation and Treatment Services (SORTS) program (formerly Missouri Sexual Offender Treatment Center) receives an average of 17 to 20 new offenders committed annually. In FY 2012, partial year funding was appropriated to open a second 25-bed treatment unit in approximately October 2011 at Fulton State Hospital - SORTS. This new ward helps mitigate job loss at Fulton State Hospital and avoids a significant capital improvement project for the SORTS program at the Farmington campus (estimated at \$72 million). Additional funding is needed in FY 2013 to provide full-year funding to staff and operate this additional 25-bed unit at Fulton SORTS. Statutory authority is located in sections 632.480 through 632.513 RSMo.

<p>Funding for a partial year (ten months) is being requested to open a third 25 bed treatment unit at Fulton State Hospital - SORTS program in FY 2013. The CPS Inpatient Redesign initiative created new ward space at Fulton State Hospital, thereby allowing the FY 2011 expansion ward to be opened November 2010 and the second expansion unit to be opened in October 2011.</p> <p>Due to over-census issues at the Farmington SORTS program and the projected growth of 17-20 commitments per year, the division is requesting ten months funding of the FY 2013 ward expansion at Fulton State Hospital. The efforts of the Inpatient Redesign initiative allows expansion of the Fulton-SORTS program which avoids a significant capital improvement project to build a new facility for the treatment of sexual predators at the Farmington campus (estimated at \$72 million).</p> <p>The statutory authority for this request is found in sections 632.480 through 632.513 RSMo.</p>

REQUEST:

Staffing request (FTE) is based on staffing levels utilized in other states for similar programs and maximum security mental health facilities of comparable size. The E&E request is based on FY 2013 budget guidelines for increased FTE. One-time E&E costs are based on FY 2013 budget guidelines. This request is for partial year funding (ten months) in FY 2013 for PS and EE costs.

2. CORE DESCRIPTION									
<p>This core item funds the division's operation of one free standing acute children's hospital (Hawthorn) and one free standing residential facility (Cottonwood). Children with Severe Emotional Disturbances (SED), and children and youth with acute psychiatric needs are the primary clients of these facilities. The 2010 estimated census population of youth under age eighteen (18) in Missouri is 1,431,353. Conservative estimates of prevalence (Center for Mental Health Services, HHS, 1997) indicate seven percent (7%) of all Missouri children, or 100,194 children, could experience SED. Estimates of any psychiatric illness with lesser functional impairment are even higher, from twelve percent (12%) to twenty-one percent (21%). Based upon a conservative presentation rate of fifty percent (50%) of children experiencing SED, some 50,097 children may need services from the public mental health authority. However, in FY 2011 approximately 16,000 children received CPS services and 253 of those children were served in hospital/residential facilities, leaving nearly 34,000 children unserved or underserved.</p> <p>In response to growing referrals from social service agencies and families, the children's facilities operated by CPS are treating children with more challenging, complex, and ingrained behaviors. Many of these children are dually diagnosed, requiring enhanced safety measures, staffing patterns and skills. The resources required to sufficiently meet the challenging demands of these children have been primarily funded through general revenue. The current state MO HealthNet Plan allows for the reimbursement of rehabilitative services for children requiring specialized residential services.</p>

Program is found in the following core budget(s): State Operated Youth Facilities

	State Operated Youth Facilities		TOTAL
GR	7,908,104		7,908,104

1. What does this program do?

State operated youth facilities provide treatment when a child is in crisis or is at serious risk of harming themselves or others, and cannot be managed in less restrictive settings. The treatment provides intensive intervention which can get the child stabilized and back in the community as soon as possible.

The Division operates two children's facilities; Hawthorn Children's Psychiatric Hospital and Cottonwood Residential Treatment Center.

A wide range of professional and paraprofessional interdisciplinary staff provide an array of treatment services including behavior modification, social services, therapeutic recreation, special education, art therapy, physical evaluation, and other consultations as needed. The goal is to promote, restore, and maintain the mental health of youth and allow their return to the community at their optimal level of functioning.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 632.010.1 and 632.010.2(1) RSMo.

3. Are there federal matching requirements? If yes, please explain.

Inpatient facilities provide GR match for Mo HealthNet eligible services through the certification of GR expenses - no additional match is required. Also, the cost associated with the operation of CPS long-term care hospitals significantly impacts the reimbursement made by Medicaid under the federal disproportionate share hospital requirements.

4. Is this a federally mandated program? If yes, please explain.

No.

The Division of Developmental Disabilities (DD) has the responsibility to ensure that prevention, evaluation, care, habilitation and rehabilitation services are accessible to Missouri citizens with developmental disabilities. In order to carry out its mission, the Division of DD provides services to persons with developmental disabilities through eleven regional offices and six habilitation centers. These seventeen facilities serve approximately 30,500 consumers and employ nearly 3,500 individuals who need administrative and technical support from the Division of DD. This core provides funding for personal services and expense and equipment for administrative staff who are essential in overseeing all statewide programs through establishing policies, procedures, and providing support to the Division's facilities and contract providers.

1. What does this program do?

The Division of Developmental Disabilities (DD) has the responsibility to ensure that prevention, evaluation, care, habilitation, and rehabilitation services are accessible to Missouri citizens with developmental disabilities. In order to carry out its mission, the Division of DD purchases and provides services to persons with developmental disabilities through eleven regional offices (located at Albany, Columbia, Hannibal, Joplin, Kansas City, Kirksville, Poplar Bluff, Rolla, Sikeston, Springfield, and St. Louis) and state operated services provided by Bellefontaine Habilitation Center, Higginsville Habilitation Center, Marshall Habilitation Center, Nevada Community Services, St. Louis Developmental Disabilities Treatment Center and Southeast Missouri Residential Services. These seventeen facilities serve approximately 30,500 consumers and employ nearly 3,500 individuals who need administrative and technical support from the Division of DD. This core provides funding for personal services and expense and equipment for administrative staff who are essential in overseeing all statewide programs through establishing policies, procedures, and providing support to the Division's facilities and contract providers.

The Division of Developmental Disabilities Central Office has six sections: Director's Office, Administrative Services, Federal Programs, Quality Enhancement, Office of Autism Services, and Licensure and Certification.

- The Director's Office directs all aspects of Division administration, including supervision of Central Office and field staff.
- The Administrative Services Section has primary responsibility for preparing the Division budget, allocating and monitoring facility funds, preparing fiscal notes, projecting and monitoring federal collections, setting statewide financial policies and all other fiscal operations.
- The Federal Programs Section oversees the operation of all Division federal programs. The Federal Programs unit develop and monitor five Home and Community Based Waivers (DD Comprehensive Waiver, Community Support Waiver, Autism Waiver, Sarah Jian Lopez Waiver, Partnership for Hope Waiver) and other MO HealthNet programs. This section has the responsibility for making sure the Division is in compliance with federal guidelines in an effort to safeguard funding for supports and services of consumers served by the Division.
- The Quality Enhancement Section is responsible for developing and implementing a formal process, structure and format for policy promulgation within the Division of DD. In addition, this section oversees all training aspects for staff of the Division. This section also oversees the development and implementation of a continuous cycle of integrated quality assurance and improvement functions. The functions are designed to assess the service delivery process, improve service outcomes, and enhance the quality of life for individuals with developmental disabilities.

The Office of Autism Services works to implement the Blue Ribbon Panel's recommendations and contemporary best practice in meeting the needs of individuals with ASD and their families. The Office of Autism Services also provides staffing support for the Missouri Autism Commission on Spectrum Disorders.
- The Licensure and Certification Section provides quality oversight to Department of Mental Health agencies, both public and private, in the State of Missouri. This oversight is carried out in order to license or certify these facilities or programs that offer services to consumers of the Department. The monitoring ensures that providers maintain compliance with applicable state standards and remain consistent with the Department of Mental Health's vision, principles of practice, and values.

2. CORE DESCRIPTION

The Department conducted a review of direct care staffing ratios and the amount of professional staff available at all habilitation centers. The review recommended significant increases in direct care staff and professional staff resources to effectively support the needs of current consumers at the habilitation centers. As a result, a pool of resources for direct care and professional staff was appropriated during the FY 2007 budget process. These direct care staff are necessary to meet the health and safety needs of complex care consumers living at the habilitation centers that require one-on-one and sometimes two-on-one staffing due to increased behaviors. The professional staff are needed to help address specific treatment issues such as occupational therapy, speech therapy and physical therapy that are necessary to ensure active treatment is provided to comply with ICF/MR standards. These funds support additional direct care staff and professional staff resources and are necessary to provide the appropriate level of care required to meet the needs of the current habilitation center consumers. Staffing Standards Pool resources are appropriated to DD's central office and will be allocated to the various habilitation centers based on need.

1. What does this program do?

As a part of the services system for persons with disabilities, the Division of Developmental Disabilities (DD) operates six state operated programs (Bellefontaine, Higginsville, Marshall, Nevada, St. Louis Developmental Disabilities Treatment Center, and Southeast Missouri Residential Services). These facilities provide an ICF/MR level of care in a structured environment for 579 consumers on their campuses. The primary mission of these six facilities is to provide active treatment and habilitation in an ICF/MR residential setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. In addition, the Division operates MO HealthNet Waiver ISL's (Individualized Supported Living) and group homes to support approximately 184 persons. State-operated ISL's and group homes can serve as transition placement to contract operated ISL's and group homes.

Consumers served by these facilities are diagnosed with developmental disabilities ranging from mild to severe, with the majority being in the severe/profound range. To be eligible for ICF/MR services or MO Health Net Waiver services, an individual must meet the Division's definition of having a developmental disability as set forth in 630.005 RSMo, and meet Division criteria of requiring placement in a state operated facility or community residential services. ICF/MR services and MO HealthNet Waiver services also serve individuals who are medically fragile and require constant medical oversight to address their complex medical needs.

State operated campuses providing inpatient residential services are certified under Title XIX Intermediate Care Facilities for the Mentally Retarded (ICF/MR) MO HealthNet program to receive the federal reimbursement share of costs for eligible residents. In recent years, more forensic and dual-diagnosed consumers have been placed in habilitation centers by court orders or through emergency placement by the Division. These consumers may not be eligible for ICF/MR federal reimbursement and may reduce the amount of collections deposited to DMH Federal. Costs for the clients living off-campus in their communities are also eligible for the federal reimbursement share under the DD state operated waiver program.

In FY 2007, funds were appropriated through the Staffing Standards Pool for additional direct care and professional staff to ensure that health and safety needs of complex care consumers receiving state operated services are being met. The additional direct care staff are required to meet the health and safety needs of complex care consumers living at the habilitation centers or in the community that require one-on-one and sometimes two-on-one staffing due to behavioral issues. The additional professional staff are needed to help address specific treatment issues such as occupational therapy, speech therapy, and physical therapy necessary to ensure active treatment is provided to comply with ICF/MR and MO HealthNet Waiver standards.

Notes: Beginning in FY 2010, the Division was allowed to utilize federal earnings which in turn resulted in GR appropriation reductions and increased federal authority.

2. CORE DESCRIPTION

The primary mission of the Division of Developmental Disabilities (DD) community programs is to provide the supports necessary to enable persons with developmental disabilities to remain connected to their parents, families, school, and community. The Division of DD operates a community-based service delivery system through its eleven regional offices for persons with developmental disabilities. The regional offices utilize core funding to contract with community providers who provide in-home supports, residential services, autism supports, and other specialized services to individuals who are able to choose their own service provider. The support services allow individuals to live in their community and stay connected with their family and live in their least restrictive environment. In addition, this core contains some personal services funds, as well as expense and equipment funds, which are used to support staff who are responsible for oversight of community programs funding. Regional office case management staff have been reallocated to the Community Support Staff section.

NOTES:

- (1) "Other" includes the Mental Health Trust Fund (MHTF) appropriation which is an "estimated" appropriation used for SB40 Board deposits. In FY 2009, the appropriation was increased by \$2,409,469 and in FY 2011 by \$5,381,506. In addition, the federal appropriation 6680 is an "estimated" appropriation which is used for the Federal MO HealthNet portion of match payments. In FY 2009, this appropriation was increased by \$29,748,117, in FY 2010 by \$31,690,531 and in FY 2011 by \$32,000,000. Division of DD will request a new decision item in the FY 2013 budget to increase appropriation 6680 by \$33 million.
- (2) Lapse amounts for Federal and Other funds occurred as a result of lower collections to support funding authority.
- (3) In FY 2010, new funding in the amount of \$47.2 million (all funds) was received. This included \$18 million GR funds, with the majority of the funding appropriated to address DD waiting lists, transition of young adults from school, and replacement funds for Habilitation Centers due to lost Upper Payment Limit collections and Provider Tax earnings as a result of fund switch at Marshall Habilitation Center and St. Louis Developmental Disabilities Treatment Center.
- (4) In FY 2012, new funding in the amount of \$35.8 million (all funds) was received to address the DD waiting lists.

PROGRAM DESCRIPTION

GR	31,712,346
FEDERAL	49,946,945

1. What does this program do?

There is a need for the Division of Developmental Disabilities (DD) to provide on-going supports to individuals and their families to enable persons with developmental disabilities to live in their communities with the supports their conditions and circumstances require. The Division of DD operates a community-based service delivery system through its eleven regional centers. The Division's community programs funding provides an array of community supports and services, including in-home supports, to families who choose to have their sons and daughters cared for in their own homes, thus enabling them to fully be included in all aspects of home, school, and community life.

Traditional in-home support services are provided for individuals who reside in their own home or with their own family, but who do not receive residential services. This program allows families who have made a personal and financial commitment to care for their children and adults in their homes to be supported in their care-giving and decision-making roles.

In-home supports are directed toward the following: preserving the natural family structure, access of generic supports available at the local level, giving families a choice in selecting support services which meet their needs, allowing consumers and families to participate in as many life experiences as possible, and giving consumers an opportunity to choose their own service providers. In addition, elderly and chronically ill parents will know their child with developmental disabilities will have supports to meet their future needs.

The community programs funding includes state match and Federal authority to draw down funds for MO HealthNet programs, such as DD Home and Community-Based Waiver, the Community Support Waiver, Autism Waiver, the Sarah Jian Lopez Waiver, Partnership for Hope Waiver, and for community Intermediate Care Facilities for the Mentally Retarded (ICF/MR).

- The Home and Community-Based Waiver for persons with developmental disabilities, which began in fiscal year 1989, is the primary source of funding for people who live in the community. The Division uses General Revenue (GR) funds to match federal funds to pay for residential and support services through MO HealthNet. The waiver includes people who live in group homes, supported living, and with their families.
- Similarly, the Community Support Waiver is a new MO HealthNet Waiver, which began in July 2003, for persons who have a place to live in the community, usually with family. However, the family is unable to provide all of the other services and supports the person requires which may include 24-hour care or supervision, 7 days a week. The total cost of waiver services required to meet the person's needs must not exceed \$22,000 annually. The person must meet ICF/MR level of care and must be at risk of entering an ICF/MR if services are not provided.

1. What does this program do? (continued)

- The Autism Waiver was approved July 1, 2009 and serves 150 individuals.
- The Sarah Jian Lopez Waiver is a MO HealthNet model waiver operated by the Division. MO HealthNet guidelines require parental income and resources to be considered in determining the child's financial eligibility for MO HealthNet when the child lives in the home with the parents. This requirement, called deeming parental income to the child, is waived for children who participate in the Sarah Jian Lopez waiver. As a result, only income and resources that are specific to the child are considered when determining financial eligibility for this waiver.
- The Partnership for Hope Waiver is a new county-based waiver approved by the Centers of Medicare and Medicaid Services in October 2010. State share costs are shared 50/50 with local county boards. Partnership Waiver serves over 950 individuals. The total cost of waiver services per individual cannot exceed \$12,000 annually.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 633 (support services defined in Sections 630.405 through 630.460).

3. Are there federal matching requirements? If yes, please explain.

1. What does this program do?

The Division of Developmental Disabilities (DD) assures that every consumer eligible for Division services is assigned a service coordinator who is responsible for that person's service plan. The service coordinator works with the consumer's family, interested parties and staff at the regional office to develop a person-centered plan with services based on goals and needs for that consumer. Once the plan is agreed upon and put in place, the service coordinator is responsible for arranging those services and monitoring their delivery. The service coordinator is the contact person for the regional office for questions and concerns from family members, physicians and providers. They also coordinate necessary paperwork and applications required of the family or guardian. DD regional offices employ 303 service coordinators and an additional 42 service coordination supervisors. In FY 2012, there are 80 counties with a Senate Bill 40 board or not for profit entity that have been approved to provide service coordination on behalf of the Division. A consumer with a local service coordinator is not assigned one from the Division, thus increasing the capacity for service coordination in those regions and reducing caseloads. Local service coordination is serving approximately 50% of the individuals eligible for DD services.

An effective, well trained service coordinator is the crucial link between the consumer and family and the Division's service delivery system. Working through service contract details, MO HealthNet changes, authorizations, ISL budgets and other paperwork, the service coordinator ensures that services are available and delivered to the satisfaction of the consumer or family, and in accordance with department guidelines and regulations.

The Division receives federal reimbursement on Medicaid eligible consumers from MO HealthNet through the DD Service Coordination program. Counties that provide service coordination are also able to bill and obtain reimbursement from MO HealthNet through agreements with DD.

Funding and FTEs from regional offices was redirected in FY 2009 to the DD Community Support Staff section. This section includes funding for all Case Manager I, II and III, Case Management Assessment Supervisors and Quality Assurance positions. The funding is allocated to the appropriate regional office to address caseloads. Community Support Staff will continue to provide service coordination services and oversee the service delivery system.

The Division of Developmental Disabilities is requesting a \$33 million increase in Federal authority (appropriation 6680) used to pay the Federal MO HealthNet portion of match payments to DD Medicaid Waiver contract providers. For the past three fiscal years, the Division has used the "E" on appropriation 6680 to temporarily increase the Federal authority. The Division requests to permanently increase this appropriation due to successfully identifying resources such as Senate Bill 40 Board funding, Division facility funds and other collections that can be used to support the state share for Medicaid Waiver services. The Division requests the "E" continue to be used on this appropriation in future fiscal years, so they can continue to leverage additional funding in DD Waiver programs.

The bill allowed the Division of Developmental Disabilities to receive monies designated on individual or corporation tax refund forms to serve individuals on the DD waiting list. The legislation also established a new fund in the state treasury to receive these funds. The fund is called the "Developmental Disabilities Waiting List Equity Trust Fund". Proceeds collected as a result of the tax refund forms shall be deposited into the new fund. Funding will be used to purchase necessary items such as home modifications, adaptive equipment and other one-time expenditures to help an individual on the DD waiting list. The Division must purchase one-time items with the trust fund, so they do not create a cost-to-continue for future fiscal years.

1. What does this program do?

There is a need for the Division of Developmental Disabilities (DD) to provide on-going supports to individuals and their families to enable persons with developmental disabilities to live in their communities with the supports their conditions and circumstances require. The Division of DD operates a community-based service delivery system through its eleven regional offices. The Division's community programs funding provides a wide array of community services, including autism supports and services, to families who choose to care for their sons and daughters with developmental disabilities in their homes or in an appropriate residential option and to fully include them in all aspects of home, school, and community life.

Autism is a lifelong developmental disability that typically appears during the first three years of life. Autism and autistic-like symptoms are the results of a neurological disorder that affects brain functioning which interferes with communication, learning, behavior and social development. Classified as a spectrum, autism is a collection of behavioral symptoms that may have more than one cause.

The Centers for Disease Control and Prevention (2011) report that the prevalence of autism and autism spectrum disorders is estimated to occur in as many as 1 in 110 individuals. This equates to 41,922 to 71,867 persons in Missouri based on a prevalence rate of .7- 1.2%.

The Division of DD established the Missouri Autism Project in 1991 as a pilot in Central Missouri. Impetus for the program came from families of children who have autism and who live in rural areas and lacked access to support services. Working with Department of Mental Health, those families designed a system in which providers, chosen by an advisory committee comprised of family members of individuals who have autism, deliver support services in homes.

Since 1991, similar consumer-driven autism projects have been developed throughout the state. In FY 2011, approximately 3,300 individuals received supports through Missouri's Autism Projects.

There are over 8,100 individuals with an autism diagnosis who are enrolled with the Division of DD. In total, approximately \$89 million is being spent on supports for consumers with an autism diagnosis.

PROGRAM DESCRIPTION

Department: Mental Health

Program Name: Autism

Program is found in the following core budget(s): Community Programs

1. What does this program do? (Continued)

In FY 2008, additional funds were appropriated to address diagnostic waiting lists at three hospitals (Cardinal Glennon, Children's Mercy, and University of Missouri, which are referred to as Missouri's Autism Centers) and to fund an intensive treatment pilot program in Joplin. Funding was also added to the existing five Missouri Autism Projects (MAP) to address waiting lists. In FY 2009, additional funds were appropriated to address diagnostic wait lists and services at the Southeast Missouri State Diagnostic and Treatment Center. Funds were also appropriated for the on-going day treatment program in Joplin, and a similar program in Springfield. Finally, funds were appropriated in FY 2009 for expansion of the Mid-Missouri Autism Rapid Response Initiative, a program designed to provide families with timely, core, credible information when their child is diagnosed with autism.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 633 (support services defined in Sections 630.405 through 630.460)

3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Note: The Division received a new decision item in the amount of \$4.7M for autism services in FY 2009. The new funds in FY 2009 includes \$1.1M appropriated to Community Programs house bill section for autism waiver services. Also, the \$1M GR reduction in FY 2010 was replaced by Federal funding through the newly approved Autism Waiver.

1. What does this program do?

The Division of Developmental Disabilities (DD) assures that every consumer eligible for Division services is assigned a service coordinator who is responsible for that person's service plan. The service coordinator works with the consumer's family, interested parties and staff at the regional office to develop a person-centered plan with services based on goals and needs for that consumer. Once the plan is agreed upon and put in place, the service coordinator is responsible for arranging those services and monitoring their delivery. The service coordinator is the contact person for the regional office for questions and concerns from family members, physicians and providers. They also coordinate necessary paperwork and applications required of the family or guardian. DD regional offices employ 303 service coordinators and an additional 42 service coordination supervisors. In FY 2012, there are 80 counties with a Senate Bill 40 board or not for profit entity that have been approved to provide service coordination on behalf of the Division. A consumer with a local service coordinator is not assigned one from the Division, thus increasing the capacity for service coordination in those regions and reducing caseloads. Local service coordination is serving approximately 50% of the individuals eligible for DD services.

An effective, well trained service coordinator is the crucial link between the consumer and family and the Division's service delivery system. Working through service contract details, MO HealthNet changes, authorizations, ISL budgets and other paperwork, the service coordinator ensures that services are available and delivered to the satisfaction of the consumer or family, and in accordance with department guidelines and regulations.

The Division receives federal reimbursement on Medicaid eligible consumers from MO HealthNet through the DD Service Coordination program. Counties that provide service coordination are also able to bill and obtain reimbursement from MO HealthNet through agreements with DD.

Funding and FTEs from regional offices was redirected in FY 2009 to the DD Community Support Staff section. This section includes funding for all Case Manager I, II and III, Case Management Assessment Supervisors and Quality Assurance positions. The funding is allocated to the appropriate regional office to address caseloads. Community Support Staff will continue to provide service coordination services and oversee the service delivery system.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 633.100 through 633.160

No.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

In FY 2009 through FY 2012, "other" funds include Mental Health Local Tax Match Fund (0930) to support service coordination provided by SB40 boards.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) worked with the MO HealthNet Division to implement a new Federal funding stream authorized in Senate Bill 1081 which was signed into law on June 25, 2008. The legislation allows the state to implement a provider tax on all Intermediate Care Facilities for the Mentally Retarded (ICF/MR). The legislation allows the state to impose a 5.49% provider tax on operating revenues of both private and state operated ICF/MR facilities. The Division of DD projects the ICF/MR provider tax on state operated facilities will generate in excess of \$4.7 million annually.

This core item is an appropriated transfer section which allows for the payment of \$443,483 from General Revenue to the ICF/MR Reimbursement Allowance Fund. This transfer is necessary to draw down FFP related to the private ICF/MR provider tax of 5.49%. This transfer of \$443,483 allows for General Revenue to be reimbursed for the private ICF/MR provider tax.

2. CORE DESCRIPTION

This item requests funding for Division of Developmental Disabilities (DD) regional offices, which are the point of entry for all persons with developmental disabilities in the state. Client access to the DMH system is facilitated through these regional offices. There are eleven regional offices around the state, located in Albany, Kansas City, Kirksville, Hannibal, Joplin, Springfield, Poplar Bluff, Sikeston, Rolla, St. Louis and Columbia. These offices are supported by numerous satellite locations. Each office, which services anywhere from three to fifteen counties, provides or contracts for case management services, develops new service providers, establishes contracts for services, develops consumer service plans, and oversees the service delivery system.

In FY 2009, funding and FTEs for all Case Manager I, II and III, Case Management Assessment Supervisors and quality assurance positions were redirected from regional office budgets to the DD Community Support Staff section. The Community Support Staff funding will be allocated to the appropriate regional office to address caseloads.

PROGRAM DESCRIPTION

Department: Mental Health				
Program Name: DD Regional Offices				
Program is found in the following core budget(s): DD Regional Offices, Community Support Staff

1. What does this program do?

The Division of Developmental Disabilities (DD) is required to identify, assess, determine eligibility, and enroll individuals with developmental disabilities who present to the DD system. This must be accomplished by knowledgeable professionals in a timely and efficient manner. As a result, DD regional offices were established to act as the service entry points for all persons with developmental disabilities in the state. There are eleven (11) regional offices around the state, which are supported by numerous satellite locations. Each regional office services three to fifteen counties.

The regional offices perform intake activities, which help to determine if the individual is eligible for services. This initial eligibility determination must be completed within thirty days of the application of service. After an individual is found eligible, a case manager is assigned to the individual (see DD Service Coordination Program Description). The regional office then, in partnership with the individual and family, works to identify the services or supports which are needed. These services and supports are documented in a person-centered plan. The plan describes what is needed, how the service/support will be obtained and delivered, and the method by which the effectiveness of the service or support will be measured. When developing and implementing individual plans, the regional office staff strives to meet individual's needs in the least restrictive environment possible, typically in or near the individual's home.

Regional offices also develop and support the contract providers who deliver the majority of services in an individual's plan. The office must continually develop new contracts, train providers, and monitor the services provided. Regional offices pre-authorize all services purchased, and are the entry point for all services billed to DD.

Regional offices are located at Albany, Columbia, Hannibal, Joplin, Kansas City, Kirksville, Poplar Bluff, Rolla, Sikeston, Springfield, and St. Louis.

Funding and FTEs from regional offices were redirected in FY 2009 to the DD Community Support Staff section. This section includes funding for all Case Manager I, II and III, Case Management Assessment Supervisors and Quality Assurance positions. The funding is allocated to the appropriate regional office to address caseloads. Community Support Staff will continue to provide service coordination services and oversee the service delivery system.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 633.100 through 633.160.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) operates six habilitation centers providing Intermediate Care Facility for the Mentally Retarded (ICF/MR) services. As a part of the services system for persons with developmental disabilities, the habilitation centers (Bellefontaine, Higginsville, Marshall, Nevada, St. Louis Developmental Disabilities Treatment Center and Southeast Missouri Residential Services) continue to provide ICF/MR level of care in a structured environment for 579 consumers on their campuses. The primary mission of these facilities is to provide active treatment and habilitation in an ICF/MR residential setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. The Division also operates MO HealthNet Waiver ISL's (Individualized Supported Living) and group homes to support approximately 184 persons. State-operated ISL's and group homes in the community have been used to effectively transition individuals from the facility to community settings. Habilitation centers also provide 13 crisis beds statewide to help support individuals in need of short term crisis/evaluation services. Most individuals accessing crisis beds have a length of stay of less than 30

1. What does this program do?

As a part of the services system for persons with disabilities, the Division of Developmental Disabilities (DD) operates six state operated programs (Bellefontaine, Higginsville, Marshall, Nevada, St. Louis Developmental Disabilities Treatment Center, and Southeast Missouri Residential Services). These facilities provide an ICF/MR level of care in a structured environment for 579 consumers on their campuses. The primary mission of these six facilities is to provide active treatment and habilitation in an ICF/MR residential setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. In addition, the Division operates MO HealthNet Waiver ISL's (Individualized Supported Living) and group homes to support approximately 184 persons. State-operated ISLs and group homes can serve as transition placement to contract operated ISL's and group homes.

Consumers served by these facilities are diagnosed with developmental disabilities ranging from mild to severe, with the majority being in the severe/profound range. To be eligible for ICF/MR services or MO Health Net Waiver services, an individual must meet the Division's definition of having a developmental disability as set forth in 630.005 RSMo, and meet Division criteria of requiring placement in a state operated facility or community residential services. ICF/MR services and MO HealthNet Waiver services also serve individuals who are medically fragile and require constant medical oversight to address their complex medical needs.

State operated campuses providing inpatient residential services are certified under Title XIX Intermediate Care Facilities for the Mentally Retarded (ICF/MR) MO HealthNet program to receive the federal reimbursement share of costs for eligible residents. In recent years, more forensic and dual-diagnosed consumers have been placed in habilitation centers by court orders or through emergency placement by the Division. These consumers may not be eligible for ICF/MR federal reimbursement and may reduce the amount of collections deposited to DMH Federal. Costs for the clients living off-campus in their communities are also eligible for the federal reimbursement share under the DD state operated waiver program.

In FY 2007, funds were appropriated through the Staffing Standards Pool for additional direct care and professional staff to ensure that health and safety needs of complex care consumers receiving state operated services are being met. The additional direct care staff are required to meet the health and safety needs of complex care consumers living at the habilitation centers or in the community that require one-on-one and sometimes two-on-one staffing due to behavioral issues. The additional professional staff are needed to help address specific treatment issues such as occupational therapy, speech therapy, and physical therapy necessary to ensure active treatment is provided to comply with ICF/MR and MO HealthNet Waiver standards.

PROGRAM DESCRIPTION

Department: Mental Health

1. What does this program do? Con't.

The habilitation center and staffing pool house bill sections includes funding for on-campus operations as well as for consumers living in state-operated ISL's and group homes. Core budget includes funding for on campus ICF/MR services and crisis services in the amount of \$77 million and community ISL's and group homes in the amount of \$17 million.

The Division will continue to use the flexibility in habilitation center budgets to purchase appropriate community services for consumers transitioning into the community.

Chapter 633.

3. Are there federal matching requirements? If yes, please explain.

No. The habilitation center ICF/MR services are a MO HealthNet service that Missouri has included in its MO HealthNet program.

Notes: Beginning in FY 2010, the Division was allowed to utilize federal earnings which, in turn, resulted in GR appropriation reductions and increased federal authority.

One-time funding in FY 2010 from the Federal Budget Stabilization Fund.

GLOSSARY FUNDING SOURCES

Abandoned Fund Account: This fund collects moneys and other personal item dispositions and then transfers the cash to the Mental Health Trust Fund.

Compulsive Gamblers Fund (CGF): Section 313.842, RSMo., authorized a fund to provide treatment services for compulsive gamblers and their families. The fund is supported through the collection of one cent of the admission charge from gambling boats as provided in RSMo. 313.820. This fund receives its revenue by way of a cash transfer from the Gaming Commission Fund.

Developmental Disabilities Waiting List Trust Fund (DDWLTF): HB 631, 96th General Assembly, first regular session, allows the Division of Developmental Disabilities to receive monies designated on individual or corporation tax refund forms to serve individuals on the DD waiting list. The legislation also established a new fund in the state treasury to receive these funds. Proceeds collected as a result of the tax refund forms shall be deposited into the new fund.

Federal (FED): Authority is appropriated to accept funds coming to the Department from federal grant sources or Medicaid earnings.

General Revenue (GR): Missouri State revenues.

Healthcare Technology fund (HCTF): This fund is to be used to promote technological advances to improve patient care, decrease administrative burdens, and increase patient and healthcare provider satisfaction. Any programs or improvements on technology shall include encouragement and implementation of technologies intended to improve safety, quality, and costs of healthcare services in the state.

Healthy Family Trust Fund (HFT): This is a State fund supported from tobacco funding awarded to the State of Missouri.

Health Initiatives Fund (HIF): This is a State fund established through the Griffin Health Care Access Bill which receives new revenues from cigarette tax.

Home and Comm-Based Developmental Disability Fund (HCBDDF): Receives fees authorized by Senate Bill 307 (2009). The bill allows the Division of Developmental Disabilities to establish a certification fee for community providers delivering residential services and day habilitation services. These funds are used for various DD initiatives.

ICF/MR Transfer Fund (ICF-MR): SB 1081, 94th General Assembly provides for the transfer of assessment revenues from providing services of intermediate care facilities.

Inmate Revolving Fund (IRF): The Inmate Revolving Fund was established in accordance with RSMo. 217.430. The sources of revenue for the fund are reimbursements from offenders participating in work release, electronic monitoring, and residential treatment facility programs and, per RSMo. 217.690, from the payment of a fee, not to exceed sixty dollars per month, from every offender placed under board supervision on probation, parole, or conditional release. Per RSMo. 217.430, the funds shall be used as provided by appropriation, to support offenders in education programs, drug treatment programs, residential treatment facilities, other community-based sanctions, electronic monitoring, or in work or educational release programs.

GLOSSARY FUNDING SOURCES

Inmate Revolving Fund (IRF) (Continued): RSMo. 217.690 further states that funds may be used for the costs of contracted collections services as well as to provide community corrections and intervention services for offenders. Such services include substance abuse assessment and treatment, mental health assessment and treatment, electronic monitoring services, residential facilities services, employment placement services, and other offender community corrections or intervention services designated by the board to assist offenders to successfully complete probation, parole, or conditional release. The Department of Corrections currently charges a fee of \$30 per offender under community supervision but may waive all or part of that fee based on factors such as disability or inability to pay. DOC agreed on the \$30 fee with the bill's sponsors when the intervention fee went into effect, but they allowed for the possibility of raising the fee in the future. The Department of Mental Health/Division of Alcohol & Drug Abuse, in conjunction with the Department of Corrections, utilizes a portion of these fees for the following programs: Community Partnerships for Restoration (CPR), Treatment Resources Encouraging New Directions (TREND) and Southeast Missouri Treatment program (SEMO). The first two programs, CPR and TREND provide assessment, case management, substance abuse treatment and employment placement for high risk offenders. The third program SEMO, provides substance abuse counseling for high risk probationers who otherwise would be unable to afford the treatment. All three of these programs are important components of the Department's efforts to reduce recidivism.

Inter-Governmental Transfer Fund (IGT): This fund is only used when the Department makes an Upper Payment Limit (UPL) claim on the state-operated ICF/MR habilitation centers to draw down additional federal funds for the State. The UPL is a method of calculating a supplemental federal payment in the Medicaid program based on Medicare cost principles.

Mental Health Earnings Fund (MHEF): There are several sources of cash deposited to this fund. One source is from the ADA Counselor Certification Board and another is the Substance Abuse & Traffic Offenders Program (SATOP). These are basically self-funded programs where expenditures are limited to the amount of revenues brought into the fund. Other sources include enterprise operations where the Department is reimbursed by private entities for activities such as food service or Mental Health First Aid USA.

Mental Health Interagency Payments Fund (MHIPF): This fund provides the mechanism for cooperative agreements between various agencies and the authority to accept funding from another state agency or DMH facility as a result of providing a service to that agency. Appropriations from this fund are considered a "double appropriation" in the statewide budget. An example of interagency payments would include agreements with the Children's Division to provide residential care and recovery for youth who require DMH services.

Mental Health Trust Fund (MHTF): This is an appropriation account established by the legislature that allows individuals or organizations to contribute to the Department for clients or programs. Section 630.330 RSMo. creates this fund and authorizes the Department to take, receive, administer and hold in trust grants, gifts, donations, moneys escheated under section 630.320, devises or bequests of money or other personal property and funds from the sales of the facilities' commissaries or canteens. The fund has been used to carry out the objects for which the grants, gifts, donations, bequests, etc. were made or for purposes of funding special projects or purchasing special equipment.

Mental Health Local Tax Match Fund (MHLTMF): Authority has been appropriated to maximize local tax funds contributed to pay the State's share for Medicaid-reimbursable services (mill tax, children's tax).
